PROFESSIONAL SUMMARY

Microsoft Certified Azure AI Engineer and Gen AI Developer at Cognizant with 1.5+ years of experience building and deploying Azure OpenAI-powered solutions for enterprise healthcare applications. Designed RAG pipelines that index and query 10L+ documents, built agentic AI workflows, and integrated LLM features into production .NET MVC systems serving CVS Health. Full-stack capable across Python (FastAPI, Flask) and .NET (C#, MVC, Web API), with hands-on Azure cloud deployment experience. IIT Madras Diploma in Programming.

TECHNICAL SKILLS

Languages	Python, C#, JavaScript, SQL, Core Java
AI / ML	Azure OpenAI, GPT-4/5, RAG, Embeddings, Vector Search, Agentic AI, Prompt Engineering, LangChain, Ollama, HuggingFace, Vertex AI, Claude Code, Playwright-WebScrapping
Frameworks	FastAPI, Flask, ASP.NET MVC, Web API, Angular, React, Vue.js
Cloud & DevOps	Azure App Service, Azure AI Search, Azure Service Bus, Azure Service Principal, AKeyless, Cosmos DB, Vertex AI, Git, TeamCity, Octopus Deploy, Google Sandbox, RAG Engine, GHA
Databases	SQL Server, Cosmos DB, SQLite
Testing & QA	NUnit, Snyk, Selenium, PyTest, Functional & Regression Testing

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions <i>Gen AI Developer .NET Developer</i>	Chennai Oct 2024 – Present
- Design and deploy Generative AI and Agentic AI PoCs using Azure OpenAI, Python, React, and Azure services for a healthcare platform serving CVS Health. - Implement RAG pipelines with Azure AI Search and vector embeddings, enabling semantic retrieval across 10L+ enterprise documents. - Integrate LLM-powered features (smart automation, document understanding, conversational workflows and document reporting) into a production .NET MVC application without disrupting core architecture. - Deploy solutions on Azure App Service with Cosmos DB backend, ensuring scalable and reliable AI-driven enhancements. - Build enhancement features for a large-scale .NET MVC healthcare application, including debugging, NUnit testing, and security vulnerability remediation (Snyk/MSO). - Manage Git branching workflows, TeamCity CI pipelines, and Octopus Deploy/GHA release management for consistent, secure deployments.	
NEC Corporation India <i>Automation Quality Analyst — Apprentice</i>	Chennai Apr 2024 – Oct 2024
- Transitioned from QA to development within 3 months, contributing .NET API endpoints and JavaScript web features for the Bausch & Lomb client. - Built Power BI dashboards and analytical reports used by business teams for data-driven decision-making. - Created Python automation scripts that streamlined internal testing processes, reducing manual effort across QA cycles.	

KEY PROJECTS

Contract Keyword Search Engine

Azure OpenAI | Azure AI Search | RAG | App Service

- Engineered a semantic search engine using Azure AI Search to index and query over 10 lakh+ enterprise documents with vector-based retrieval.
- Deployed a RAG-based architecture on Azure App Service, enabling high-speed retrieval of specific legal clauses and contract keywords.

Contract PDF Comparison Tool

Azure OpenAI | Azure Service Bus | Chunking | GPT-4

- Built an AI-driven document analyser to automate side-by-side comparisons of complex business contracts, reducing manual review time.
- Integrated Azure Service Bus for asynchronous queuing, ensuring reliable processing of large-scale files during peak loads.

TheraBot — Mental Health Chatbot

Azure OpenAI | FastAPI | Cosmos DB | Sentiment Analysis

- Developed an empathetic mental health chatbot with sentiment analysis and secure session tracking using Azure OpenAI and Cosmos DB.

Sign Language Recognition System

Python | OpenCV | Mediapipe | Scikit-learn | Random Forest

- Built a real-time ASL gesture recognition system using webcam input, Mediapipe hand landmarks, and OpenCV for preprocessing.
- Created custom training samples, trained and fine-tuned a Random Forest classifier for accurate sign classification, improving accessibility for hearing-impaired users.

EDUCATION

Qualification	Institution	Year	Score
Diploma in Programming	IIT Madras (Online)	2025	65%
B.Tech, CSE	Dr. MGR Educational & Research Institute	2024	90%
Higher Secondary (+2)	Lakshmi Matric Hr. Sec. School	2020	84%

CERTIFICATIONS

- [Microsoft Certified: Azure AI Engineer Associate](#) (AI-102)
- [Microsoft Certified: Azure AI Fundamentals](#) (AI-900)
- [Microsoft Certified: Azure Fundamentals](#) (AZ-900)
